## About me:

I live in Søborg with my husband. Our sons have moved out and are studying to be a nurse and a teacher.

I work half time as politician and half time together with my husband in our company. When I go around the municipality, I start my electric bike.

## What is important for me?

Good opportunities for all children and young people – to thrive and develop. We need to take care of them, get them ready for a good life, offer education and healthy leisure activities.

If they need extra help, the municipality must be the constructive partner who listens and help to find solutions. Even if there is no unlimited money, together we must find the right effort.

## I will work for

The necessary help to those who need it

Healthy, cool and fun communities for everyone

Developing our municipality – housing, jobs, activities, and public transport

Socialdemocrats have done well for our municipality for many years. We have many good offers for the citizens and a healthy economy. I stand again to continue the good work together with committed citizens.

A vote on me will help ideas and initiatives on the way in our group and the city council

The Social democrats have a parallel line-up on the list – so it is the number of personal votes that count.
